

I am writing to ask that you consider the request of KLOVE and other FM translator stations to not allow rule changes that would replace translator stations with LPFM. I listen to KLOVE everyday here in Albuquerque and know dozens of other people who do as well. It is a constant source of music, news and uplifting messages that I need during the day. KLOVE has family friendly content that I have not found in any other local station of a similar format. The families of Albuquerque need KLOVE on the air. Thanks for taking the time to read my comment.
